

Year 5 Autumn 1 Homework - Earth and Space

As 'Earth and Space' is this term's topic, we have given you a list of challenges to complete for your homework. You must complete at least 1 challenge per week.

Please bring your homework in once you have completed a challenge and we will keep these safe. At the end of half term, we will showcase all of your homework by holding a space exhibition for the other classes to see your lovely work. Be creative with your challenges, have fun and be proud!

Please remember to read every day at home too. Your reading diary MUST be written in at least twice a week by your grown up to tell us what book you have read and how many pages. Your reading records will be checked daily to see how you have been getting on.

Challenge 1

Use any materials/objects you like to create your own solar system.

Challenge 2

Write a diary entry as an astronaut in space.

Challenge 3

Research facts and create a fact-file about the solar system. Try and include the most interesting facts you can find.

Challenge 4

Find out about the famous moon landing and create an information sheet. This can be done on the computer or handwritten.

Challenge 5

Do some space themed baking (you may want to leave this until closer to the time of our exhibition in case you want to bring it into school).

Challenge 6

Write a diary entry as an alien visiting planet Earth from space.

Challenge 7

Keep a sky at night journal for a week. Draw a picture of the moon every night for a week and see if it changes.

Challenge 8

Design a space suit for an astronaut.

Challenge 9

Write a poem about space.
