

Space Topic Homework - Autumn 1

Here are some learning challenges for this half term. You must complete one challenge per week. Please be as creative as you can to make these interesting.

At the end of this half term we will have a Space exhibition, where you can bring in anything you have made to show to the other classes and teachers in school. Please feel free to complete any other space themed challenges you think of yourself.

Please also remember to read at least once a week, books are due in every Wednesday and new ones given on Friday. Spellings will be set on EdShed as usual every week.

Challenge 1

Use any materials/objects you like to create your own solar system.

Challenge 2

Write a diary entry as an astronaut in space.

Challenge 3

Research facts and create a fact-file about the solar system. Try and include the most interesting facts you can find.

Challenge 4

Find out about the famous moon landing and create an information sheet. This can be done on the computer or handwritten.

Challenge 5

Do some space themed baking (you may want to leave this until closer to the time of our exhibition in case you want to bring it into school).

Challenge 6

Write a diary entry as an alien visiting planet Earth from space.

Challenge 7

Keep a sky at night journal for a week. Draw a picture of the moon every night for a week and see if it changes.

Challenge 8

Design a space suit for an astronaut.

Challenge 9

Write a poem about space.
