

Welcome to The Heys School

“Pupils benefit from the calm atmosphere that permeates this friendly and welcoming school. Staff model how to talk with kindness and respect. This is reflected in how pupils talk to each other and to visitors. Pupils are happy in school. They are encouraged to take part in community activities and to be responsible citizens. Pupils take pride in their school and in their achievements.” Ofsted June 2024

The Heys School is a smaller than average 11-16 mixed comprehensive school which was graded as **‘Good’** in all areas by Ofsted in June 2024. The size of the school allows us to provide aligned and differentiated support as we strive to provide the highest standards for students and staff alike. Our core values of **Be Kind, Be Determined, Be Respectful** underpin the goal for all students to **maximise our potential, to be the best we can be, every day**

The Heys School stands at the centre of our community and we embrace the opportunity to offer our young people guidance and aspiration to be the best that they can be in all aspects of life. We prepare our students to be active and valuable adults. Quality teaching and learning supported by reliable and structured pastoral systems provide opportunities and guidance on becoming resilient young people.

We strongly believe in building a culture of resilience and tolerance in which our students can thrive. Our aim is to increase our students’ self-belief while opening their eyes and minds to pathways which lead to them becoming whatever they believe they can be.

Relationships between school and parents/carers are key to the development of successful young people. We actively encourage parents/carers to interact with school by calling anytime or arranging to come into school for a visit and a tour.

If you need to know more, please don’t hesitate to get in touch by visiting our website or following our social media platforms.

Mr P. McKendrick, Headteacher
